

EDUCATION TAILORED TO YOUR CHILD'S NEEDS

Tuition-free online school for grades K–12

WHO WE ARE

Indiana Gateway Digital Academy (INGDA) is a full-time, tuition-free online public school for students in grades K–12. With online learning, your child can learn at home or wherever there's an internet connection while enjoying the benefits and support of a school community. Our personalized approach to online learning is one of endless possibilities, where learners—no matter who or where they are—can create, explore, and find their own path to success.

ABOUT OUR SCHOOL

At INGDA, your child can learn at home or wherever there's an internet connection while enjoying the benefits and support of a school community.

INGDA uses innovative technology and a rich interactive curriculum from K12, a leader in online education for more than 20 years. Our students complete a mix of online lessons and offline activities and are supported by Indiana state-licensed teachers who provide live instruction in virtual sessions called “Class Connects.”

WHAT WE OFFER

- Quality education for Indiana residents in grades K–12
- Live instruction from Indiana-licensed teachers trained in online learning
- Engaging, interactive curriculum designed to accommodate multiple learning styles
- Education supplies, including computers, books, and hands-on materials*
- A community of support for students and families
- Clubs and in person events for student socialization

Why Choose Us?

INGDA provides a safe, engaging learning environment where your child can learn at their own pace. Your child will gain the knowledge and confidence to reach their full potential and build the social, emotional, and real-world skills they need to meet tomorrow's challenges. And you'll be by their side, supporting them along the way because there's no better feeling than watching your child thrive!

Our personalized approach to online learning is one of endless possibilities, where learners—no matter who or where they are—can create, explore, and find their own path to success.

Indiana Gateway does **whatever it takes** to leverage personalized learning experiences so that every student is prepared to enroll, employ, or enlist.

"This is really the most progress my son has shown during his whole nine years in school. I would like to thank all of you so much for letting me see my son can learn."

-Rochelle, parent of 9th grader at INGDA

Indiana Gateway Digital Academy's (INGDA) career readiness program provides an opportunity for students to explore their interests while building skills that prepare them for life after graduation. Students can take electives in these high-demand career fields: Business Administration, Business Operations and Technology, Finance and Investment, Marketing and Sales, Hospitality Management, Nutrition (Dietetics), Software Development, Computer Science/Programming, Education Careers, Medical Assisting and Digital Design.

Meeting Students Where They Are

Student learning and academic growth are paramount at INGDA. While we offer a level of flexibility, we recognize the importance of classroom pacing and the need for students to complete their work based on set due dates.

INGDA high school uses a semester-based approach where students are required to earn a passing grade on their assignments and online lessons. Due dates are assigned to lessons to encourage consistent, steady progress for academic success.

Attending teacher-led, direct-instruction, online synchronous Class Connect sessions, along with completing coursework, will help students be successful.

Whether they're headed for college, the professional world, or both, INGDA provides an opportunity for students to gain practical skills and prepare for industry-relevant certification exams while working toward their high school diploma.

Student Success Coaching

High school students can meet with Success Coaches to get advice on creating résumés, networking, interviewing, financial aid, college preparation, internships, and more!

Career Clubs

Career clubs provide an opportunity for teens to dive deeper into different industries while socializing and offer exciting activities like community service projects, interscholastic competitions, and field trips.

Earn College Credits

Eligible high school students can enroll in select courses that allow them to earn credit toward both their high school diploma and a postsecondary degree. Students can explore career fields in greater depth, experience college-level coursework, and save time and money on a degree program by completing college-level coursework in high school. Colleges such as: Ivy Tech and Ball State University.
